

Edsine™ Product Details

Innovation & Education. Redefined.

What is Edsine™ ?

Edsine™ is a state-of-art **online school management and administration system**. It has comprehensive set of modules for all kinds of school functioning and online access for management, teachers, parents, and students. Edsine™ is a unique solution catering to the needs of **K12 schools, Play schools and Day Boarding schools**.

The screenshot displays the Edsine™ software interface. At the top, there is a header bar with a placeholder for 'Your School Logo' and a welcome message for 'Karan Singh [Super Admin]'. Below the header is a navigation menu with links: My Space, Library, Finance, Human Resources, Administration, Control Panel, and Master Maintenance. To the right of the menu are search and language selection tools.

The main content area features a 'Notice Board' section with a black background and white text. It contains three bullet points:

1. Winter Timings - The timings with effect from Monday, 1st Nov 2010 is 7:30 a.m. - 01:30 p.m.
2. It will be compulsory for students to wear winter uniform w.e.f. 8th Nov 2010
3. Open House Class 12 will be held on Saturday, 23rd October 2010

Below the notice board is an 'Edit' button. To the left of the main content are two side panels: 'Bookmarks' and 'My Tasks'. The 'Bookmarks' panel lists 'Photogallery', 'Staff List', 'Student Attendance', and 'Student's Exam'. The 'My Tasks' panel lists 'School Assembly'. On the right side, there are two calendar sections: 'Event Calendar' and 'Holiday Calendar', both showing the month of May 2011 with specific dates highlighted.

Notice Board

1. Winter Timings - The timings with effect from Monday, 1st Nov 2010 is 7:30 a.m. - 01:30 p.m.
2. It will be compulsory for students to wear winter uniform w.e.f. 8th Nov 2010
3. Open House Class 12 will be held on Saturday, 23rd October 2010

Edsine™
Innovation & Education. Redefined.

Why Edsine™ ?

In addition to all the basic, Edsine™ provides various rich features like **multilingual support** for over 50 widely spoken languages, **custom fields** for school's unique data capture and storage needs, **custom reports** for generating various custom reports and charts, **single click power search** on all modules and web, **event notifications** through Email or SMS, real time **chat** between students, teachers and parents, integrated **ticketing support** system and **open connectors** for customizing the software behavior.

To support these functional features, Edsine™ product has a **robust and scalable architecture** at its core supported by **role based fine grained security** enabling schools to create their custom roles and define their permissions. This is **easy-to-use and simple** in navigation even for a primary student. Edsine™ is **highly customizable** and various deployment models like **SaaS, Hosted and Premise** addresses the specific needs of all kind of schools.

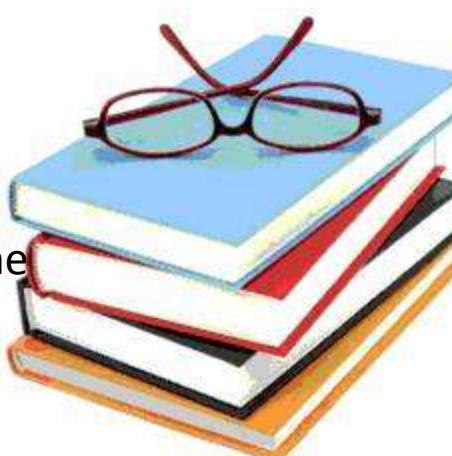

Few Challenges with School Eco-system

- Poor communication among - Admin, Faculty, Students & Parents
- Huge and Scattered File System
- Difficulty in Time-Table scheduling/generation
- Lack of transparency in the system
- Huge manual work like analyzing the performance of students
- Difficulty to track and refer to old data
- No option of working from home

Our Vision

To enhance the productivity and increase the opportunities for everyone in the educational ecosystem.

Advantages of Edsine™

- Increases integration/communication between departments
- Increases profitability while maintaining product quality
- Enhances value-added relationships
- Supports student/parent services and manages their expectation
- Decreases total cost: order processing, material handling, distribution, direct labor etc.
- Remote online tracking of student activities and school information
- Provides real time information

Why Schools Need Edsine™ ?

- Cost effective
- Robust architecture and highly secured system
- Scalable and customizable to specific requirements of schools
- Internal communication options like Chat, E-Mail, SMS
- Immediate support system
- Using best servers with unlimited bandwidth and speed
- Easy to migrate
- Increased data integrity, validity and reliability
- Self-service environment for students and employees
- Enhanced strategic decision making and planning capabilities
- Intuitive easy user interface hiding complexity

For details: http://www.edsine.com/documents/edsine_features_guide.pdf

Reason to Choose Edsine™

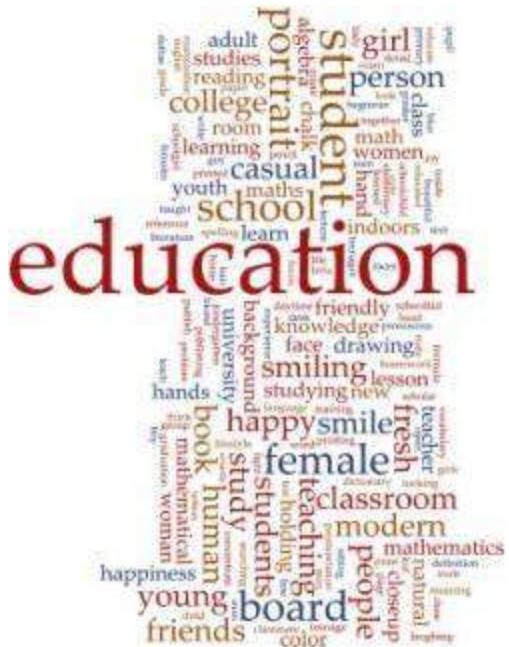

- Multi-Lingual support for parents
- Transparency in operations
- Easy circulation of notices and events
- Easy access to download prospectus and job applications
- User friendly system with which one can make their own profile settings
- Past students data can be easily accessed
- Flexibility in modules selection
- Low implementation and maintenance cost
- Powerful custom reporting

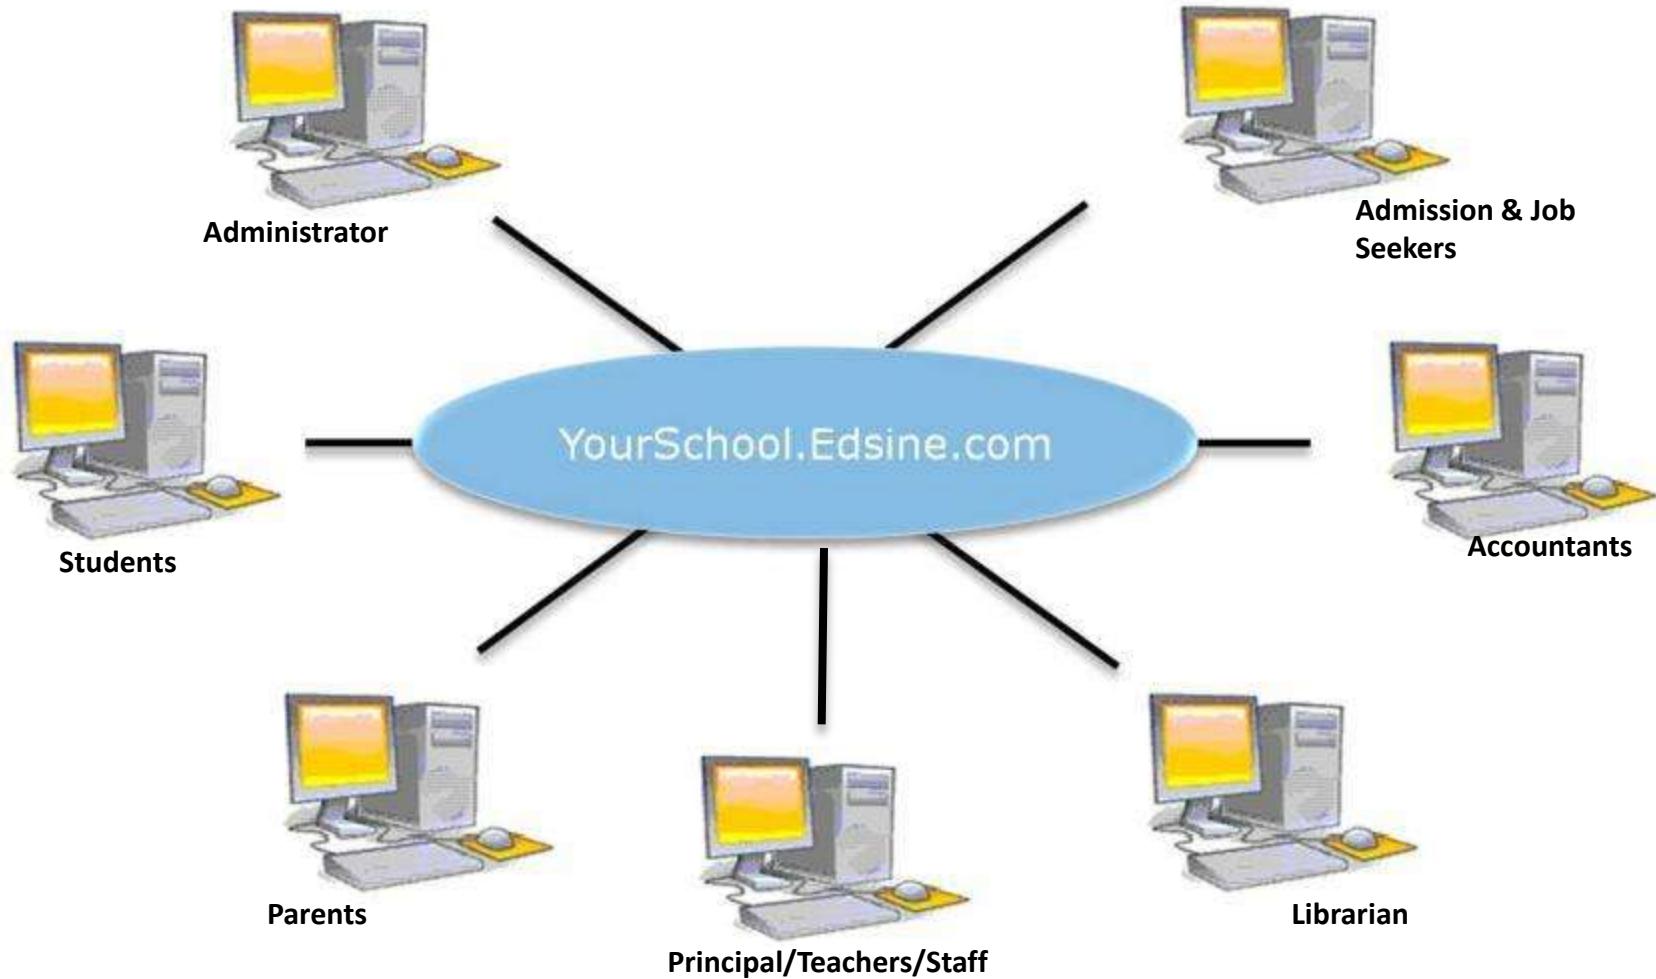

Edsine™ : Solution for all kind of Schools

- Play Schools
 - Residential Schools
 - Day Boarding Schools
 - International Schools
 - Multiple Board Schools
 - Multiple Medium Schools
 - Multiple Branch Schools
 - Colleges & Universities
 - Training Institutes

Edsine™ has been developed after a series of detailed discussions with the principals, school administrators, computer operators, clerks etc. of some of the most reputed schools in India as well as United States.

Edsine™ Multilingual Support

- Supports More than 50 Languages
- Parents can view their children details in their comfortable languages by just selecting the language of their preference from the dropdown
- Edsine™ supports multi lingual feature to overcome language barrier for the schools that impart education in regional language
- Following are the illustration of Hindi and Urdu language:

A screenshot of a web interface with a blue header bar. On the left is a house icon. To its right, the text "मेरी जगह पुस्तकालय वित्त मानव संसाधन प्रशासन नियंत्रण कक्ष मास्टर रखरखाव" is displayed. On the far right is a dropdown menu labeled "Hindi" with a globe icon.

A screenshot of a web interface with a blue header bar. On the left is a house icon. To its right, the text "ماسٹر کی بحالی کنٹرول بینل انسانی وسائل کی انتظامیہ انسانی وسائل کی خزانہ لائبریری میرے سبیس" is displayed. On the far right is a dropdown menu labeled "Urdu" with a globe icon.

Edsine™ Single Click Power Search

- Edsine search enables users to search through any module using a single click
- It generates the search results very quickly and provides simplicity in searching all fields from a single Search box
- Edsine allows you to search through the web using the in-built web search feature

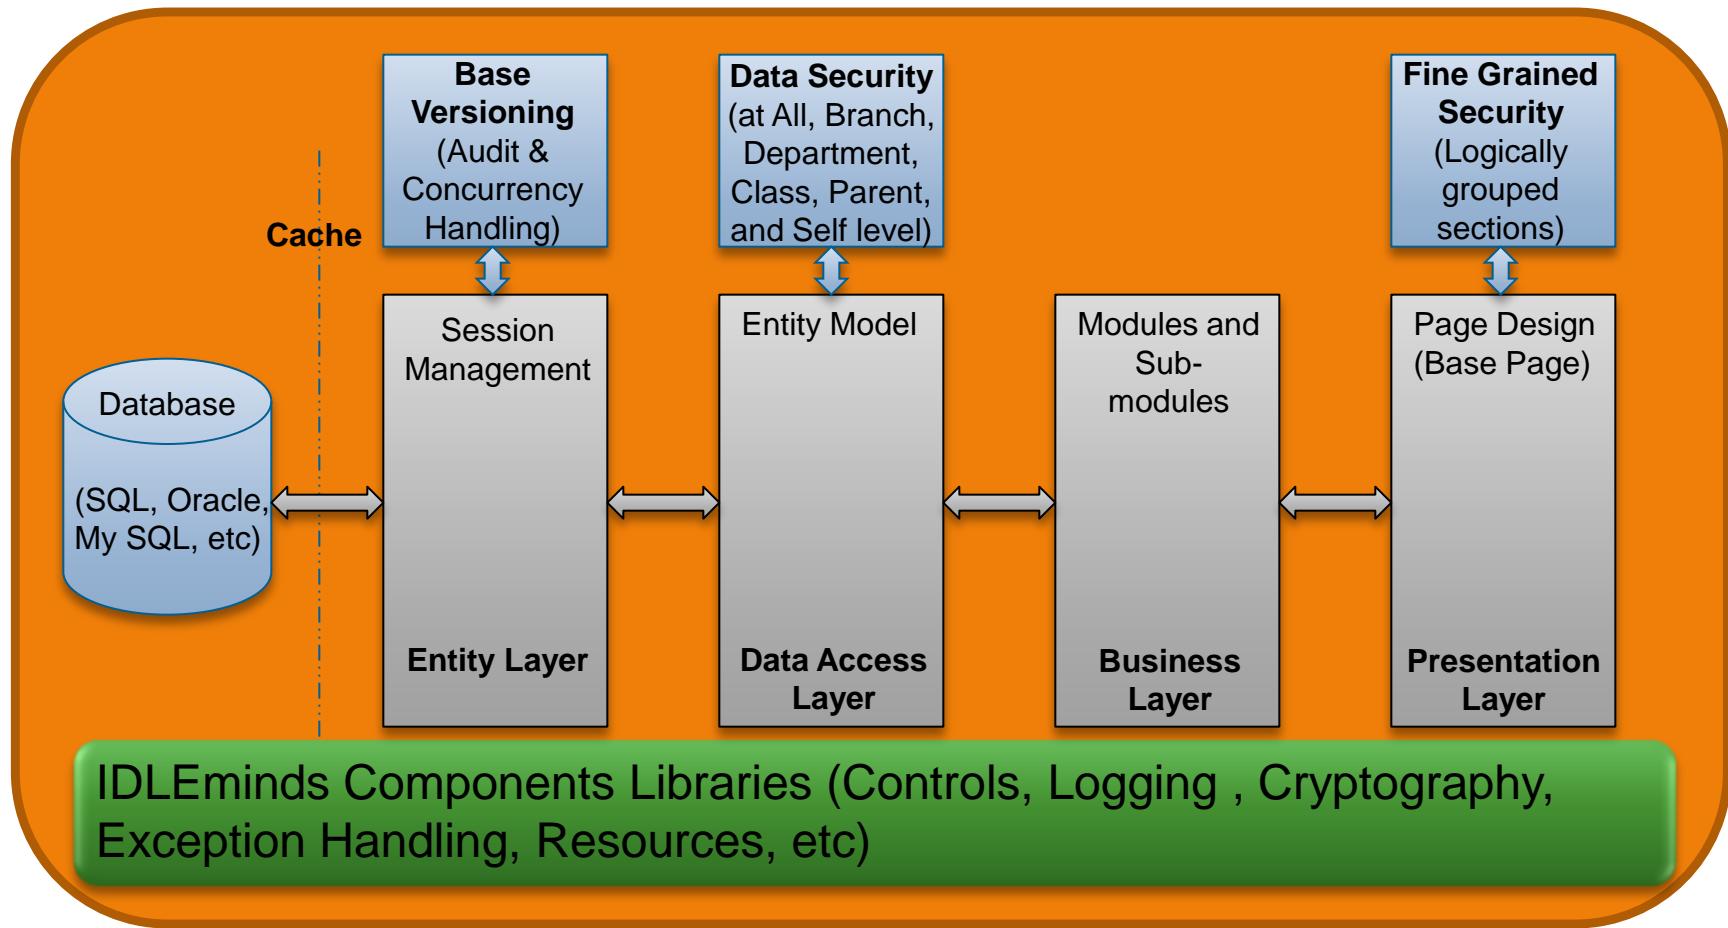

Edsine™ Custom Fields

- The software can be customized by the schools as per their unique data capture and storage needs.
- School can create any additional field themselves in any module for capturing and reporting on that data field.
- School have the facility to assign attributes like range, type, behavior etc to their additional custom data fields. For e.g. if a school would like to capture parent's occupational designation in the software, they can create this custom field themselves without approaching Edsine development team.

Registration & Admission

Guest users can create their login by signing up and can either apply for any job opportunities at school or can apply as a student for admission. The login page can contain customized links for the schools like download prospectus etc. A guest user can track the status of their job or admission application online.

The screenshot shows a web-based application for school management. At the top right, there's a navigation bar with tabs: "Edsine™ Academic Modules", "Registration & Admission" (which is highlighted in orange), "Student Management", "Staff Management", "Examination & Results", and "Master Curriculum". Below the navigation is a "Sign-in | Quick Demo" link. On the left side, there's a placeholder for "Your School Logo" with the text "will appear here". The main content area features a grid of nine smaller images: a pencil and glasses, a hand holding a puzzle piece, a girl wearing glasses, a book, a flower, and a person's hands. To the right of the grid is a "Login" form with fields for "User Name" (containing "superadmin") and "Password" (containing "....."). There's also a "Stay signed in" checkbox and a "Submit" button. Above the login form are two buttons: "Download Prospectus" and "Job Opportunities".

Registration & Admission

- Prospective admission and job seekers can signup/register with Edsine
- Parents/student can download prospectus and apply online for admission
- Parents/Students can check admission status online
- Job seeker can search for openings in the school and can apply online
- Selection details can also be seen online
- Online registration and admission saves school's time and reduces work load

How It Reduces Work?

- Online registration helps prospective students and parents to apply for the admission while sitting comfortably at home.
- Schools can either process these forms in real time or can process them offline later in batch as per prioritization.
- Less work for school staff as parents/students have filled most of the information and they just need to verify it.
- Previous academic years admission records available for audit and analysis
- Every student's documents and previous school history available for review
- Admission documents helps to remind document submissions with due date
- Download student admission details in word, xls, pdf formats
- Print version of the form also available for book keeping, if needed

Student Management

Student details are categorized into basic, personal, family, previous school & documents. This module contains complete student's record management and captures all aspects of student's file.

Timetable

Timetable can be generated for any grade, stream and section. Teachers associated with various courses can be assigned to a grade on particular day and periods. Rooms and activities can be assigned to a particular period for a class.

- Create regular and substitution timetable – set substitution timetables for specific week for a specific class to override the regular timetable. Everyone's views changes automatically based on effective timetable.
- Schedule staff and courses against periods and days. Schedule activities for a week in periods and use the facility to set the rooms for periods of the timetable.
- Class view of timetable for students and parents, staff view of timetable for staff
- Holidays integrated in timetable
- Timetable also integrated with staff appointments
- Configure branch wise, class wise periods and their timings using master screens

Timetable – Class View

Search and see timetable of any class with information about courses and activities, teachers and rooms.

- Kid Food, Nutrition & Sleep Management
- Application Security & Access Control
- Reports Management

Library Management

Library module is the complete automation of the library functions and processes like items inventory maintenance, issue or return item, issue request queue management, fine and waivers.

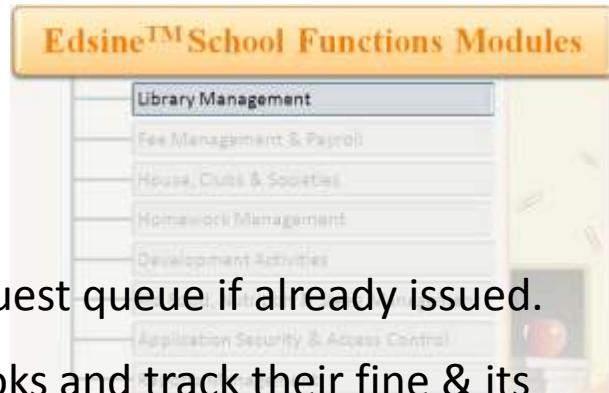

- Add, update, search and view library items. Maintain entire inventory details and check availability status.
- One can access books details in library list and can make online request

Library Item List													
S.No.	Title	Author	Edition	Publication	Item Type	Category	Item Code	Item Status	Issuable	Oueue	Make Request	View/Edit	Delete
1	Applied Chemistry	A R Gupta	Second	RR	Books	Technical	A-CHM03	Issued	Yes	0	Make Request		
2	Physics	Ram Sharan	First	Wrox publication	Books	Science	ABCD1234	Available	No	1	Make Request		

<< first < prev 1 next > last >>

Request Tracking

- Request an item for issue, if available, to join the request queue if already issued.
- One can access previous issued books, return the books and track their fine & its waiver details

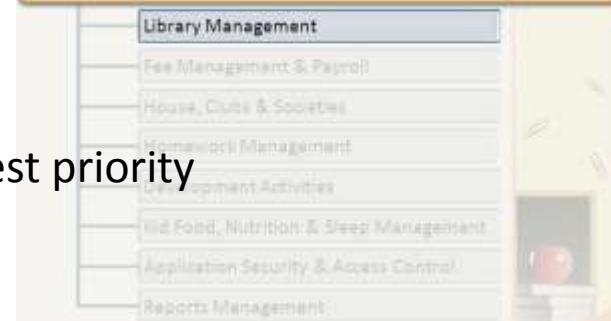

My Request

S.No.	Library Item	Person Name	Request Date	Issue Date	Issue Comment	Due Date	Return Date	Return Comment	Fine Amount	Fine Waiver Comment	Request Status	Cancel
1	Physics	Karan	05-Feb-2010		Issued as per request	18-Feb-2010	30-May-2010	Returned	51.00	Waived	Closed	
2	Applied Chemistry	Karan	06-Feb-2010	30-May-2010	Mystery	01-Jun-2010	10-Mar-2011	Fine collected	182.00	Waived	Closed	
3	Physics	Karan	08-Aug-2010	10-Mar-2011	Issued	12-Mar-2011					Accepted	

<< first < prev 1 next > last>>

[Make New Request](#)

Issue and Return

- Librarian can issue and return the item based on request priority
- Fine is calculated as per the configured rules
- Library items can be marked as lost with an option for recovery

 Return

Fee Management – Fee Setup

- Create and maintain various fee structures using flexible and configurable components.
- Associate fees with various grades and streams for auto fee calculations of associated students.
- The fee structure can be revised based on terms. The system calculates the dues and displays accordingly for students.

Fee List

Fee Master **Fee Component** **Fee Waiver** **Fee Association**

« first < prev 1 next > last »

S.No.	Term Name	Grade Name	Stream Name	Fee Name	Fee Type	Notes	Component	View/Edit	Delete
1	May 2009 - Apr 2010	Tenth		Annual Fees	Academic	Class Tenth Annual Fee			
2	May 2011 - Apr 2012	First		Class First Fees	Academic	Academic Fees for grade First			
3	May 2008 - Apr 2009	Eleventh	Commerce	Commercial Stream Fee	Academic	Only for Commerce students			
4	May 2008 - Apr 2009	Eleventh	Commerce	Library Charges	Academic	Commercial charges			
5	May 2008 - Apr 2009	Eleventh	Arts	NTSE	Scholarship	National Scholarship			
6	May 2008 - Apr 2009	Eleventh	Science	Transport Charges	Scholarship	Bus charges			

Fee Component Setup

- Define various fee components and club them into groups to create various flexible fee structure.
- These independent components can be bundled to create any fee structure of fee waivers.

Edsine™ School Functions Modules

The screenshot displays the Edsine School Functions Modules interface, specifically the Fee Management section. At the top, a navigation bar lists 'Library Management', 'Fee Management' (which is selected and highlighted in yellow), 'House, Clubs & Societies', 'Homework Management', and 'Development Activities'. Below this, a modal window titled 'Fee Component' is open, showing a list of five fee components with their amounts and notes:

Component	Amount	Notes
Tuition Fees	5000.00	Tuition
Sports Fees	2000.00	Sports
Registration Fees	100.00	Registration Charges
Transport Fee	250.00	Transportation
Online Portal Fee		

Below the modal, a 'Fee Component List' table shows the same five components with their details. The table includes columns for S.No., Component, Notes, View/Edit, and Delete. The 'Fee Component' tab is selected in the navigation bar at the bottom.

S.No.	Component	Notes	View Edit	Delete
1	Online Portal Fee	This fee is charged for providing the online access of Edsine.		
2	Registration Fees	This is the basic registration charge.		
3	Sports Fees	For the sports good used.		
4	Transport Fee	Fee for transportation facilities provided by the school.		
5	Tuition Fees	This is the basic fee.		

Fee Waiver

- Create various types of fee waivers as required by state laws or school policies.
- Waiver can be given on fee components either in absolute values or in percentage.

Fee Waiver List

S.No.	Waiver	Notes	Component	View/Edit	Delete
1	Disabled	This waiver applies to disabled kids having different degrees of disability.			
2	Freedom Fighter Kid	This is a waiver for the kids from the family of Freedom Fighters.			
3	Under Privileged	This waiver applied to kids from the poor families.

Permission Management

- Assign module and sub module permission to a role, assign role to a user

The screenshot shows the 'Edsine™ School Functions Modules' interface. On the left, there's a sidebar with various management options: Library Management, Fee Management & Payroll, House, Clubs & Societies, Homework Management, Development Activities, Kid Food, Nutrition & Sleep Management, Application Security & Access Control (which is highlighted), and Reports Management.

The main area is titled 'Permission Management'. It has a 'Role' dropdown set to 'Accountant'. Below it is a 'Module' section containing a list of modules: Admission, Attendance, Control Panel, Development Activity Management, Discipline, and Events. To the right of the modules is a 'User' dropdown set to 'frontoffice' and an 'Available Roles' dropdown containing a list of roles: Accountant, Administrator, Class Teacher, Guest User, HOD, Lab Attendant, Librarian, Parent, Principal, Staff, Student, Teacher, and Trial User. There are also buttons for moving roles between 'Available Roles' and 'Selected Roles'. A 'Selected Roles' list box shows 'Front Office Operator' selected. At the bottom right is a 'Save' button.

Reports Management

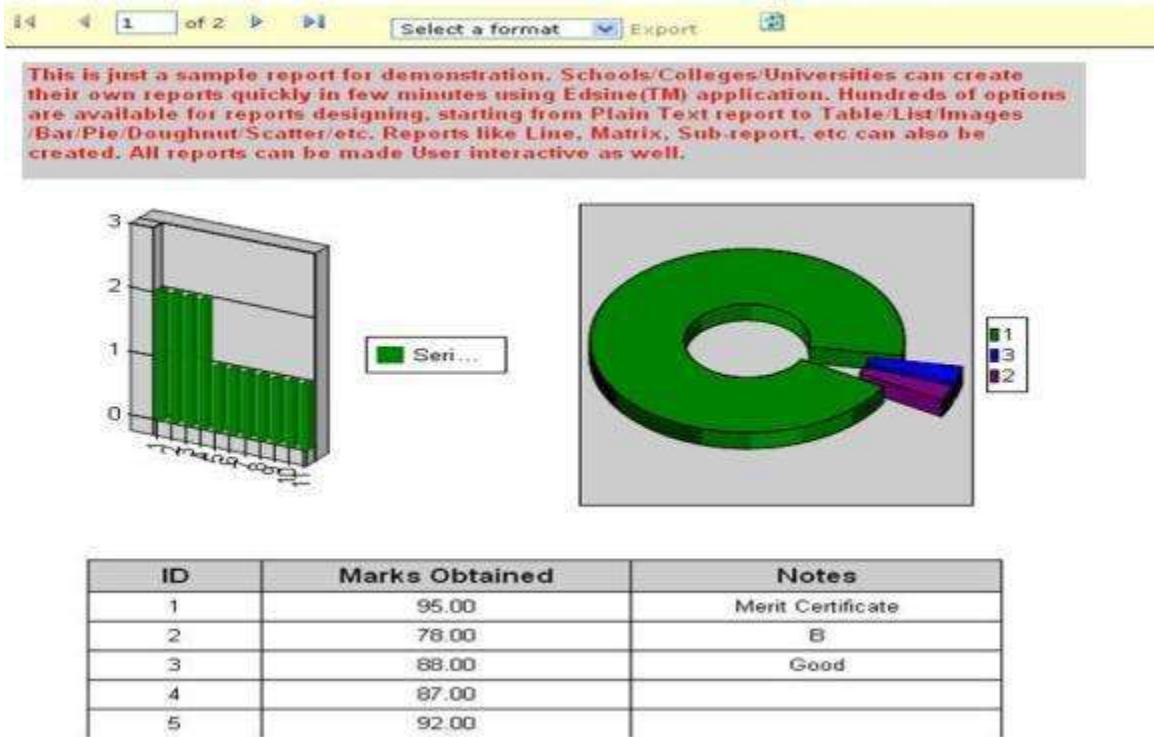

- Reports management of various modules for students, parents, teachers, staff and administrators
- A stand alone tool is provided through which schools can create simple and complex reports with charts, tables, matrix and various formatting options.

The interface shows a "Report List" header with a "Report" icon, a search bar, and "Add" and "Print" buttons. Below is a table with columns: S.No., Report Name, Report Pages, Notes, Download Report Template, Run Preview Report, View/Edit, and Delete. Three rows of sample data are listed:

S.No.	Report Name	Report Pages	Notes	Download Report Template	Run Preview Report	View/Edit	Delete
1	Sample Report 1	All	This is sample report 1		Run/Preview Report		
2	Sample Report 2	All	This is sample report 2		Run/Preview Report		
3	Sample Report 3	All	This is sample report 3		Run/Preview Report		

Reports Management

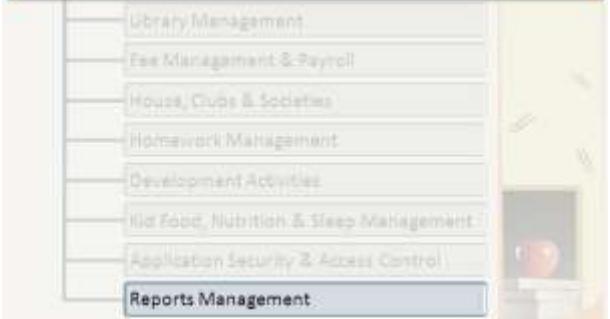

This is just a sample report for demonstration. Schools/Colleges/Universities can create their own reports quickly in few minutes using Edsine(TM) application. Hundreds of options are available for reports designing, starting from Plain Text report to Table/List/Images/Bar/Pie/Doughnut/Scatter/etc. Reports like Line, Matrix, Sub-report, etc can also be created. All reports can be made User interactive as well.

ID	Marks Obtained	Notes
1	95.00	Merit Certificate
2	78.00	B
3	88.00	Good
4	87.00	
5	92.00	

Edsine™ School Functions Modules

Library Management
Fee Management & Payroll
House, Clubs & Societies
Homework Management
Development Activities
Kid Food, Nutrition & Sleep Management
Application Security & Access Control
Reports Management

- Schools can create their own custom reports and link them with any modules for its availability in the corresponding module.
- Reports can be exported to various formats

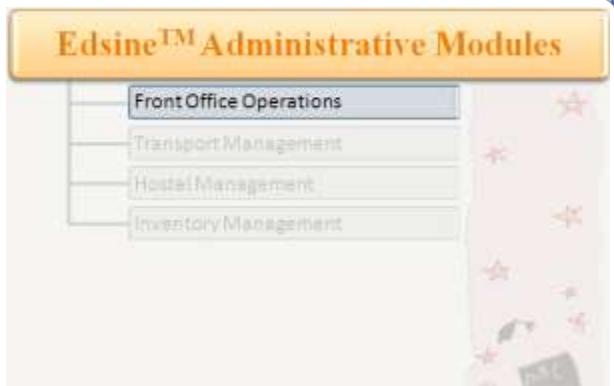

Edsine™ Administrative Modules

- Front Office Operations
- Transport Management
- Hostel Management
- Inventory Management

Front Office Operations

- Students, parents can make an online request for important documents like Transfer Certificate, Character Certificate, No dues, etc.
- Document (No dues, character, transfer, etc) request, collection and tracking can be easily done by front office desk person

Requested Document List							
S.No.	Document Name	Document Category	Requested By	Reason	Document Request Status	View	Edit
1	Character Certificate	Certificates	Karan Singh	Moving to the new school	Open		
2	NTSE	Forms	Karan Singh	Applying for the scholarship Exam	Closed		

Front Office Operations

- Students, parents can make an online request for appointment with teachers and staff
- Front office desk person can view the appointment of teachers and staff and can provide details or setup time with them and enquirer
- Appointment visibility can also be set as private

1	Shivika Rawat	26 Jan 2010	10:53 AM	11:45 AM	Madhu Kundra	Discuss about the violent behaviour of the child in the school.	Yes		

<< first < prev 1 next > last >>

Transport Management

Schools can easily manage all of their transport operations using Edsine software. Edsine helps in managing transport operations in the following ways:

- Route and route stop creation and configuration
- Monthly fee setup for each route stop
- Online transport request management
- Route and stop allocation to student and staff
- Vehicle information maintenance

Transport Management

- Student and staff can request a transport facility online providing the details about their preferred route, pickup and drop route stop
- They can track their request status online

Hostel Management

➤ Manage hostel requests, outing requests and visitor list

Edsine™ Administrative Modules

The screenshot displays three administrative modules:

- Hostel Request List:** Shows a table with one row for Aadi Gupta at Arjuna Boys Hostel, Double occupancy, cost 1000.00, requested on 02 May 2011, status Closed.
- Outing Request List:** Shows a table with one row for Suresh Gupta at Hostel Room 100, purpose To meet Aadi, meeting person Aadi Gupta, start time 9:00 AM, end time 1:00 PM.
- Visitor List:** Shows a table with one row for Suresh Gupta at Hostel Room 100.

Each module has a header bar with tabs: Hostel, Hostel Room, Hostel Room Cost, Hostel Room & Person Mapping, Hostel Request, Outing Request, and Visitor. The Hostel Request tab is highlighted in yellow in all three modules.

Inventory Management

Edsine helps in efficient Inventory management of a school. Schools can create the inventory category and store and can track requests and purchase order details.

Following are the broad functions of this module:

- Inventory category and store setup
- Inventory item maintenance
- Request log maintenance and tracking
- Purchase order and its detail maintenance

Inventory Management

- Create Inventory category and description that will be used while managing inventory items

Inventory Category List

Add

Inventory Inventory Category Inventory Store Request Log Purchase Order Purchase Order Detail

<< first < prev 1 next > last >>

S.No.	Category	Description	View	Edit	Delete
1	Computers and Accessories	This will include desktops, laptops, keyboards, mouse, USB and other computer peripherals.			
2	Consumable goods	This will include kitchen items and other consumable goods in the school stock.			
3	Furniture	This will include all the furniture including tables, chairs, etc. available in the school.			
4	Lab Equipments	This will include equipments of physics, chemistry or biology labs used in the school			
5	Sports Goods	This will include football, basketball, bat, cricket ball, wickets, gloves, rackets and other sports items.			
6	Staff Supplies	This will include attendance register, report cards, etc. used by the staff.			
7	Stationary	This will include school stationary like pen, paper, notebook, chalk, duster, etc.			

Inventory Management

- Maintain inventory items and its information like quantity, cost, store location, issue status, dates in and out, bill number, identification number, codes, notes, etc.

Staff Leave Management

Holidays and Leaves of a school can be maintained on Edsine. Define holiday calendar for the school and create leave type categories and leave inventory for different leave baskets for a session for staff.

Based on the administrative holiday and leave inventory configuration, students and parents can view the holiday calendar and staff can additionally check their leave account including availed, carry forward and balances. Staff can track their leaves taken during any academic session. Following are the broad functions of this module:

- Holidays of school can be maintained
- Staff leaves can be maintained and categorized
- Staff can apply leave online
- Staff can check their leave status, balance, availed and carry forward
- Staff can track their leaves taken during any academic session
- Auto calculation of leave inventory is done

Recruitment Management

The entire recruitment workflow starting from job postings, job application, short-listing and selection of candidates, referral and final selection is automated in the system. Offer letters can be generated online for the selected candidates. Guest users can see the job posting on the Edsine website, can apply online and track their status.

- Complete Recruitment process is automated including job postings, job application, short listing and selection of candidates, referral and results
- Offer letters can be generated online
- Guest users can see the job posting on website and can apply online and track
- Employees and students can view postings and upload resume of their referrals

Job Openings

Edsine™ Human Resources Modules

- Create job postings online which can be viewed by both internal as well as guest users
- Guest users can apply against any job postings and submit their resume online

The screenshot shows the 'Mail Configuration' section of the Edsine software. At the top, there's a table for the 'Admission' module with columns for Event Name, Description, Configure, and Active. The 'Event Name' is 'Admission Confirmation', 'Description' is 'Admission Confirmation', 'Configure' has an 'X' icon, and 'Active' has a checked checkbox. Below this, there's a 'Attendance' section. In the 'Mail Details' area, there's a 'Compose' button and a 'To' field with a dropdown menu showing a list of users: accountant, admin, classteacher, frontoffice, guest, hod, librarian, parent, principal, staff, student, superadmin. There are 'OK' and 'Cancel' buttons at the bottom of this list. To the right, there's a 'Compose' window with fields for 'To', 'Subject', and 'Message', and buttons for 'Send' and 'Reset'.

Dashboard : Quick Profile Link

- Users can quickly check their profile information from the dashboard

The screenshot shows a user profile interface titled "Person Details". It includes sections for "Personal Details", "Contact Details", and "Relationship". The "Personal Details" section contains fields for First Name (Karan), Middle Name, Last Name (Singh), Date of Birth (19-Sep-1980), Gender (Male), and Blood Group (O+). The "Contact Details" section contains fields for Email (info@edsine.com), Phone (9812345678), and Mobile (9812345678). The "Relationship" section has a "Relationship" dropdown set to "Select..." and a "Student" dropdown also set to "Select...". A blue "Add" button is located at the bottom right of this section. The "Present Address" section shows an address (112 Hosur Road) with dropdowns for State (Karnataka), City (Bangalore), and Zip (309890). The "Permanent Address" section shows an address with dropdowns for State (Uttar Pradesh), City (Bareilly), and Zip (501901). There is a "Copy from Present" checkbox and a "Present Address" section with identical fields.

Dashboard : Setting, Bookmark, Chat Link

- Users can change their password from the dashboard
- Bookmarks can be saved on any page which lists them under quick access link
- Online chat facility is available for the users who can connect with each other

The screenshot displays the Edsine Dashboard interface. On the left, the "User Preference Details" section shows fields for "User" (superadmin), "Old Password", "New Password", and "Confirm New Password". A "Save" button is located at the bottom. In the center, the "Bookmarks" section lists "Photogallery", "Staff List", "Student Attendance", and "Student's Exam", each with edit and delete icons. To the right, the "Online Users" section displays the message "No user is currently online!". A modal dialog box is overlaid on the screen, titled "The page at localhost says:", containing the instruction "Please enter new name for the bookmark" and two buttons: "OK" and "Cancel".
